

Be-Tech
Fingerprint Digital Door Lock For Patio Door

Easy Access
Leading Keyless Solutions Since 1992

**Alarm (Incorrect Fingerprint, RF Card or PIN code)**

Alarm will be on and last for 60 seconds if anyone attempts to open the lock with incorrect Fingerprint, RF Card or PIN code for 5 times.

**Scramble code**

You can enter random numbers prior to the right code when there is a chance of exposing it to others.

**Various access**

Be-Tech K7s has four access solutions, Blue key, Fingerprint, RF Card key or PIN code for your convenience

**Mobile APP**

Allow users to configure and unlock the lock via mobile phone.

**High strength lock case**

304 stainless steel with 1.5mm thickness assure high strength performance to protect the inner mechanism from drilling attempts

**Flexible handle operation**

Double lock by simple lifting of handle. And free turn is available in 45 degree.

**Anti-panic exit system**

For convenience and in case of emergency, it allows you to open the door by simply pulling its handle from inside.

**Remote management(Optional)**

Connecting between Wifi network and the locks by a Gateway can fulfill multiple operations when the owner is far away from home. Like browsing the access record, unlocking and amending the valid time of pin-codes, etc. This is way more flexible to manage the access for the owner that has houses to rent out.

**Mechanical key override**

For emergency, it can also be unlocked with a mechanical key.

**Low battery warning signal**

A continuous "beep" sound during door access will alert you to replace batteries.
